30/6/2023

Dear all

In this week's digest:

- Don't forget to consider attending one of the two **workshops** that will be held on Friday 14 July as part of MODSIM2023 see https://mssanz.org.au/modsim2023/workshops.html. Both will be at the CDU Waterfront building, not far from the Convention Centre. Contact the organisers of each workshop for more information.
    - Bayesian ideas in pictures / How to build a spatial causal network
    - Navigating a Career in Science: A professional development workshop for Early Career Researchers and Young Professionals

- The offer is still open to editors who might want to promote their journal at a display table at MODSIM2023. Please contact Sue Cuddy if interested – susan.cuddy@csiro.au

- The Australian Mathematical Sciences Institute runs courses for HDR students, the course on *Statistical & Time-Series Analysis of Climate Variables*, led by Professor John Boland might be of particular interest. See https://rhed.amsi.org.au/ace/#sem2

If you would like something included in this digest, please email it to office@mssanz.org.au
Kind regards, Karen
