

Dear all

In this week's digest:

- Oxford Molecular Biosensors are offering a new online course in surface water quality, modelling and management. It is a masterclass based on a lecture series with access to downloadable WQ modelling software, practical session, support notes and papers. The lecture course is aimed at scientists, students, academics and water professionals working in environmental consultancy, research, environmental and regulatory agencies, water companies. Find out more at <https://www.omb.co.uk/courses>
- CSIRO has a job opportunity for a Senior Principal Hydrologist to be based in Brisbane, Canberra, Melbourne, Adelaide, or Perth. Applications close 7 November. See <https://jobs.csiro.au/job-invite/88842/>
- The call for sessions for MODSIM2023 is open until **21 October**, see details at <https://mssanz.org.au/modsim2023/streams.html>
- Nominations for MSSANZ Fellows are open until **18 October**, submit at <https://mssanz.org.au/forms/mssanz-fellow-nominations/>

If you would like something included in this digest, please email it to office@mssanz.org.au

Kind regards, Karen
