Welcoming Sponsors

MODSIM is Australia and New Zealand's pre-eminent modelling conference where we share innovations in modelling and its implementation – including new applications, software and methods that can help transform the industries, decision-making and solutions needed in our modern world.

As one of the most collegiate and collaborative events for those in the modelling discipline, MODSIM is a great place to network with innovators, researchers and those at the forefront of applying the latest science and technology solving some of the most complex issues of today and tomorrow.

Perth is a dynamic hub of Australian resource, medical, and technical industries. The unique environment and situation at the edge of Australia, a gateway to Asia and the Indian Ocean, is the perfect setting to inspire innovation and new connections.

Benefits for Sponsors

- Demonstrating your organisation's commitment to innovation and application at the forefront of modelling through supporting MODSIM's success
- Connecting with upwards of 800 of the discipline's researchers and innovators both nationally and internationally to promote your services and products
- Promotion of your involvement and commitment through the MSSANZ mailing list to over 2000 subscribers, reaching new clients, collaborators and professionals
- Opportunities for promotional exhibits and/or scheduled speeches at key times through the conference
- Potential for hosting workshops or sessions related to your organisation and/or its products and services
- Free registration(s) including attendance at networking events such as gala dinner, morning/ afternoon teas, lunch and icebreaker sessions
